SNYDER Okla May 12—Nine [illegible] orpses were found here last ni[illegible] days removing the most gru[illegible] vidence of the cyclone which [illegible] estroyed the town Wednesday night

None of the injured died during the [illegible] night some of whom have been [illegible] live only by the skillful efforts of [illegible] hysicians and nurses working in the [illegible] mergency hospital and as soon as [illegible] axlight came people were at work [illegible] ing ready to perform the last rites [illegible] or the dead

Burial of the Dead.

Three carloads of coffins arrived dur[illegible] ng the night from Oklahoma City to[illegible] ether with a dozen undertakers from [illegible] he convention of undertakers in session here Workmen also came in on a [illegible] pecial train furnished by the Frisco [illegible] nd the work of burial was carried on [illegible] ith the utmost dispatch

During the morning a heavy rain came up and rendered operations difficult The floor of the morgue was covered with water Most of the buildings that remain standing admitted streams of water through the roofs and sides and the temporary hospital where the injured remaining here are kept looked like a sieve wetting [illegible] number of the patients The rain which was accompanied by some wind and hail served to frighten the residents but those who were able kept bravely at work through the water and mud caring for their suffering injured and burying their dead Several of the newly made graves were filled with water

Other Injured Found.

Two more injured were discovered under some debris early in the morning but neither was identified They were pinioned under a house beam One man was delirious and the other a boy was unconscious

Owing to the failure to keep any records at the outset there has been great difficulty in securing an accurate list of the number of dead The Associated Press representative secured the first list wednesday complet[illegible] on Thursday afternoon and but few alterations have been made The two or

DESOLATE SCENES IN THE STRICKEN TOWN OF SNYDER

OKLAHOMA CITY, May 12—Mayor [illegible] F Mazenbaugh of this city returned from the storm stricken town of Snyder today and when asked about the conditions prevailing there said

The dead will number fully one hundred and I think it will run beyond this number, as many entire families are missing and can not be accounted for either among the dead or injured Besides the reports from the surrounding country are very meager and will undoubtedly add later many more to the awful list of victims I should judge that the injured will number near two hundred, about 30 per cent of whom will die as there are many whose injuries are pronounced fatal by the physicians

Every Building Damaged

Every building in the town is damaged and three-fourths of them are good only for kindling wood and can not be repaired at all

Everything north of the track is completely destroyed, even the grass being killed The ground looked as if it had been run over by a big harrow

The track of the storm has been determined for a distance of about 25 miles but the dead and injured in the track will not be known for some time as all in the track of the storm are nerve-wrecked by the awful sights that they have had to see, and are in a bad condition to report accurately the extent of the disaster

Thirty box cars on the Frisco railroad were smashed to pieces and the roundhouse is a pile of ruins as are also the cotton gins

Burial of the Dead

There is plenty of help on hand to take care of the wounded and homeless and to perform the last sad rites for the dead About 80 graves were dug yesterday and those who are to be buried at Snyder will soon be consigned to their last resting place while others will be shipped to other towns for burial

The train which left here last evening got into Snyder this morning at 3 o'clock and turned around and came back to this city arriving here at noon today Twelve dead and injured were taken to Lawton on that train and five were brought to this city en route to Norman

"Those who passed through the terrible storm say that the full force of the storm did not last over five minutes coming just after a heavy rainfall and no premonition of the storm was given

It is stated that many of the buildings in the town were covered with cyclone insurance but how many and to what extent it is impossible to find out at this time

Scene Is Indescribable

The scene in and around the town is one that one witnessed would never be forgotten the army of willing workers taking care of the injured and preparing the dead for burial the utter destruction of dozens of buildings the dead bodies of hundreds of horses cattle hogs and chickens scattered about all go to make up a scene that words can not describe and reminds us that one with a fore knowledge than ours holds us in the hollow of his hand

Fully 20 per cent of the injured will die Nearly all are mangled in the head and death resulted with 90 per cent of the victims from injuries about the head

AMUSEMENTS

"A GAMBLER'S DAUGHTER."

Sensation, melodrama, action and plenty of comedy are what the author of "A Gambler's Daughter" has provided, and, judging from the laughter and applause at the Opera house last night, these are the elements most in demand by the patrons of summer amusement at this popular house. "A Gambler's Daughter" differs from most plays of its class in having a plot and always keeping it prominent. The author utilizes a great number of people in the development of his story but none are dragged in without cause and all are necessary in the action of the drama. To compare such a production as this with that of "Sapho" would not be fair. It appeals to different classes and to different sentiments and the fact that both plays greatly pleased the admirers of the Fountain company is reason sufficient for their presentation.

The entire acting strength of the Fountain company is utilized in this production and the performance given is one that would satisfy the author. Bobby Fountain has done nothing better than his interpretation of the part of Walter Paighton. Miss Fountain has not a great deal to do but she does it well. Miss Van Etten is one of the new people who have joined and her work in this bill shows her to be a capable as well as a talented actress. Miss Helmlick, Mamie Moran, Otto Orello, Harry Fernandez, Jack Connelly, William Echols and Chris Moran all do good work and the production shows no shortcomings.

The last performances of "A Gambler's Daughter" will be given today, matinee and night.

NAT C. GOODWIN COMING

Nat C. Goodwin will present his greatest success, "An American Citizen," for his engagement at the Opera house on Monday evening in which the dominant passion is the leading motive and the alertness and adaptability of the up-to-the-minute American is the theme. Mr. Goodwin is to have the most congenial part in the breezy opportunity grasping man of affairs who overcomes every obstacle that is placed between himself and the girl he selects for his choice. Comedy prevails in the play and there are several touches of pathos that will interest and delight.

Ina Goldsmith, a cosmopolitan actress, well known in all English speaking countries is a member of Nat C. Goodwin's organization in which she has the role of an English dowager duchess whose son, the reigning duke, has leased his entailed and mortgage-bedecked estates, including his mother's services as hostess, to a wealthy American. Miss Goldsmith is said to bring her stage talent and a European training to its highest in this part. She wears with becoming effect several stunning gowns that will become at once the despair and admiration of every woman who sees Mr. Goodwin's comedy.

DAFFY DAPHNE.

The comic opera "Daffy Daphne," which will appear at the Opera house Tuesday night is tuneful and original to a remarkable degree. The Cap and Bells club of Colorado college, which puts on the production, is composed of some 30 young men. It is a distinctively college production and filled with college fun. The music, which has an added charm of being original, is bright and catchy. There will be many strong choruses and abundant comedy work. Whether interested in Colorado college or not every one who attends will hear music that is new and tuneful and have a rollicking good time.

The Richest Man in the World.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger the symptoms will disappear and good health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Leonardo, Kas., writes, "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease which certainly would have cost me my life." BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc.

Do not delay, any signs of Kidney or Bladder trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick dust sediment or small particles float about in it, the kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

INTERCOLLEGIATE TRACK MEET [illegible]

Today is High school day at Boulder and the athletic track teams from nearly every High school in the state will gather for the annual contest. The Colorado Springs High school team is in charge of Principal J. B. Richards. Manager Claude Shaw and Captain Will Cork have a special car for Boulder. A number of students accompanied the team, and today a still larger number, especially members of the senior class will go to Boulder.

There are 16 entries in the meet, the events being as follows: 120-yard hurdles, 220-yard dash, discus throw, 220-yard run, 440-yard run, 880-yard run, running high jump, running broad jump, putting 12 pound shot, throwing 12 pound hammer, pole vault, discus throw.

The prizes to be awarded are as follows: (1) A gun and a silver medal to contestants for first and second places in each event. (2) A special medal for each individual who breaks any of the records established in previous meets. (3) A gold medal for the individual winning the greatest number of points in the meet. (4) A silver cup which will be the principal championship trophy to be won by the school securing the greatest number of points. (5) A banner for the school winning second place. (6) A banner for the winner of the relay race.

Governor McDonald will present a cup to be known as the "Governor's Cup" to the winning team.

The Colorado Springs team is composed of the following boys: [illegible] Shaw, Will Cork, Herbert Spencer, Joe Morrison, Jack Stovall, George Phillips, Richard Morrison and Ziebarth Roe.

A careful study of the records for the last three years, these being the only years during which official records have been kept, shows remarkable progress, and many record-breaking contests seem to be on. The official state interscholastic records are as follows:

100-yard dash, 10 1-5, Annis, East Denver, 1903.

220-yard dash, Annis, East Denver, 1903.

COLORADO SPRINGS SCORERS SCORE

GAME AT ST. JOSEPH IS REPLETE WITH CLEVER PLAYING—TWO TOO WILD.

Special to the Gazette.

ST. JOSEPH, Mo., May 12.—Colorado Springs suffered a shut-out in a game replete with clever playing. Andrews' two-base hit over Curtis followed by a timely smash to left by Peer scored St. Joe's run.

It was a battle of pitchers from the beginning of the first to the last of the ninth inning between Eyler and Swormsteadt. At but one stage in the game, in the ninth inning, had Colorado Springs the ghost of a chance to win.

Mellor's drive through Douglass let the Springs first baseman reach the second cushion. Blake struck out and Mellor was nipped up on an inside drive. A wild pitch by Eyler let Mellor to third. Swormsteadt copped one to the pitcher. Swormsteadt pitched wild at times but it cost the Springs nothing. Barring the eighth inning not a Springs man passed second.

Both teams played errorless ball. Umpire Mace gave good satisfaction.

TIGERS VERSUS "AGGIES" TODAY

PLAY ON WASHBURN FIELD FOR CHAMPIONSHIP IN THE STATE INTERCOLLEGIATE LEAGUE.

At 3 o'clock today the decisive game of the state intercollegiate baseball series will be played on Washburn field between college and the State Agricultural college nines, the two schools which will battle today for the championship of the Aggie league. A victory for the Aggies gives them the state championship, which goes for the latest dope to all three schools.

With the Methodists out of town the Aggies will have a walkover.

On April 29 the two teams played their first game at Fort Collins. It took eleven innings and resulted in a score of 7 to 6 in favor of the Aggies. Luck was against the Tigers and it is universally conceded that they will win today. Gum, the Fort Collins pitcher, is one of the best who ever pitched a game in the state's collegiate league. The college however, plays a better fielding game and its men are better batters than the Aggies.

Dan Meara, an Amherst man of Denver, has been selected upon for the umpire. He umpired the Sacred Heart and Golden games and is considered one of the best umpires in the state. The teams will line up as follows:

Colo. College		Fort Collins.
Hester	pitcher	Gum
Mitchell	catcher	Grant
Vandemoer	first	McMillan

Tyler	third	Phelps

KNOCKED UNCONSCIOUS WITH PITCHFORK BY BROTHER-IN-LAW

D. P. Bagby, residing at 321 East Victoria avenue, was struck in the neck with a pitchfork in the hands of Chris Yeager, an angry neighbor, about 7:30 last evening and severely injured. Yeager resides in the 900 block on South Weber street, just around the corner from the Bagby residence, and has a barn overlooking the Bagby back yard. Yeager accused Bagby of stealing old lumber from the barn and when the latter protested, struck him with the pitchfork, felling the man to the ground unconscious. A woman assisted Bagby to his feet and to his house, while others summoned a physician.

Constable Harvey Gillingham was summoned to the scene and placed Yeager under arrest upon a charge of assault to kill. The prisoner was taken to the county jail and will be given a hearing before Justice O. R. Dunnington today.

Dr. H. L. Richardson made an examination of Bagby and found him suffering from a contusion upon the right side of the face. The blow landed upon the right jaw, cutting the ear and almost dislocating the jaw. Had the pitchfork struck at the neck, an inch lower, it would probably have caused the death of Bagby by dislocating the spinal column. Bagby is small of stature and suffers from consumption. When the physician left him, Bagby was still only partially conscious and complained continually of his neck hurting. The full extent of his injuries cannot be determined until today.

Your Nerves

Are the life, the vitality, the energy of your body.

It is the nerves that cause the heart to pulsate, the lungs to inhale the air, the brain to direct the muscles, every organ of the body, the stomach to digest food, the liver to excrete the bile, the kidneys to filter blood and the bowels to carry off the waste.

When the nerves of the stomach become weakened or exhausted indigestion, constipation and inflammation results because the stomach is inactive.

This is true of all the organs of the body and proves that to cure disease you must strengthen the nerves.

Dr. Miles' Nervine

is the great specific for the nerves and by bringing them back to health never fails to cure all cases of Nervousness, Sleeplessness, Neuralgia, Headache, Backache, Muscular Twitch, St Vitus Dance, Fits, Epilepsy, Stomach, Liver and Kidney troubles.

QUESTION WHO OWNS FISH IN PROSPECT LAKE

The question of the right of the lessee at Prospect lake to sell and sell fish is being investigated by the committee on public grounds and buildings of the city council. It is charged that recently a great quantity of suckers have been caught in the lake and sold to markets around the city and yesterday the committee called upon City Attorney Robinson for a construction of the lease under which the lessee is allowed to use the lake. As there is nothing in the lease which gives the lessee the ownership of the fish it is probable that the lessee will be requested to surrender to the city the money received from the sale of the fish.

The Perkins Crockery Company's Auction Sale is now on in full swing. Sales every day at 3 o'clock.

CITY HALL NOTES.

Building Inspector Young yesterday issued building permits as follows: Fred Ahrens frame residence of four rooms and bath at 108 South Prospect street, to cost $1,200. J. C. Hass, two brick residences of three rooms and bath at 702 and 704 North Spruce street, to cost $800 each. E. J. Eaton corrugated iron shed roof at 19 North Nevada avenue, to cost $40.

Under orders from Chief Adams the police are strictly enforcing the law regarding bicyclists riding upon the sidewalks of the city and yesterday two young men, Ed Brooks and John S. Bull were fined $5 and costs each for pedaling along the sidewalk in preference to the roadways. William Owens was fined $10 and costs for being intoxicated and the sentence suspended for two hours to enable him to leave the city.

BEET SUGAR IN COLORADO.

One of the most surprising developments of recent years in this state is the growth of the sugar beet and beet sugar industries. Until 1899 the cultivation of this variety of beets was almost unknown in Colorado. In that year the first factories were built one in Grand Junction and one in Rocky Ford. Last year there were nine factories in operation and two more will be ready for this year's crop. In addition to these it is probable that two or three additional factories will be built to handle the 1906 crop.

The nine factories now in operation are located at Fort Collins, Greeley, Loveland, Longmont, Windsor, Eaton, Rocky Ford, Sugar City and Grand Junction, and the two new ones are at Sterling and Lamar. Last year these nine establishments handled 500,000 tons of beets for which the farmers received $5 a ton or a total of $3,250,000. The product in refined sugar was worth about $5,000,000 and in addition to this was a considerable value in pulp and molasses. To these must be added another by product which in time may become more valuable than either of the others. The factories are now shipping to alcohol distilleries in Wisconsin and Michigan a kind of waste molasses, squeezed from the pulp from which a high grade of alcohol is made.

Colorado now ranks second among the states in the number of its beet sugar factories being surpassed only by Michigan. The nine factories now in operation here represent an investment of $7,000,000. All this is a development of six years, and as the conditions here favoring the growth of the industry are unsurpassed it is easy to see that the figures quoted may easily be doubled in the next five years.

The soil and climate of Colorado, especially in the northern part of the state and in the Arkansas valley, are peculiarly adapted to beet culture, and the beets raised have a higher percentage of saccharine matter than those produced in any other state. The average yield per acre is very great, so the crop is highly profitable to the farmers.

An industry which adds so much to the value of our agricultural and manufacturing products must be ranked among the most important in the state. A crop which six years after its first cultivation pays the farmers three and a quarter million dollars in one season is not to be lightly regarded and the time may come when the sugar beet will be the most valuable agricultural resource of the state.

RUSSIAN AND JAPANESE GUNNERY.

A GREAT deal has been written about the weight and speed of the ships in the opposing fleets now in the China Sea, but very little of the factor which is most likely to decide the contest, that is the comparative degree of skill in gunnery. As President Roosevelt has so often said, the only shots that count are the ones that hit, and other factors being equal it is the man behind the gun that wins the battle, providing he knows how to shoot straight.

The several battles and skirmishes in which Togo's fleet has already been engaged have proven beyond doubt that the Japanese gunners are splendid marksmen. Fighting on the sea is no longer done at close quarters. The days of hand to hand conflicts passed away with Paul Jones and Commodore Perry, and the naval battles of today are fought at a distance of from one to two miles. Even the biggest and bulkiest battleship makes a very small target so far away, and this fact together with the delicate mechanism of the big guns makes accurate marksmanship a highly scientific thing.

After the running fight in the Japan Sea between Kamimura's fleet and the Vladivostok squadron it was found that the Russian ships particularly the latter, were literally riddled with holes made by 6 and 8 inch shells, and this notwithstanding the fact that the Japanese vessels at no time got closer than a mile to their enemy. The Japanese gunners have had the benefit of fifteen months practice in war which is worth ten years practice in peaceful maneuvers, on the other hand the Russian gunners who will oppose them in the impending battle have never fired a gun at an enemy, never smelt the smoke of battle. Target practice has never been indulged in to any great extent in the Russian navy and Admiral Rojestvensky put in the time when he was waiting at Madagascar in training his men in gunnery, his chances of success in the next battle will be even smaller than they would otherwise be.

TRANSPORTATION IN NEW YORK.

The [illegible] to the operation of the New York subway has shown the necessity for its construction to an even greater extent than its builders anticipated. The new tunnel had scarcely been opened to travel before it was taxed almost to the limit of its capacity. Few cities in the world are more congested than New York and the transportation problem has always been one of the most serious to confront the authorities. Manhattan Island is long and narrow and the travel is mainly [illegible] and north. Year by year the demands on the surface roads became greater, their capacity and speed [illegible] sufficient to accommodate the crowds, and [illegible] always [illegible] carrying traffic [illegible] business [illegible] competitor of the horse roads, occupies a unique [illegible] field. Apparently the people it is now handling either walked to and from cabs or did not travel at all. [illegible] demands of [illegible] as a result [illegible] transportation [illegible] people who have been compelled to live in the crowded sections of the city are moving to what in comparison is the country. The effect of [illegible] will of course be [illegible] parts of the city [illegible] population of New York [illegible] Manhattan and [illegible] Bronx. Where Manhattan which once contained [illegible] of New York city is now merely the nucleus of [illegible] New York [illegible] the time will come when it will be [illegible] to the rest of the city by the [illegible] known as the City of [illegible] bridge [illegible] the [illegible] a small spot in the center.

The Democrats long since placed Lincoln among their heroes and after McKinley's death they canonized him as one of the saints. It was naturally to be expected that the new world cardinal would Roosevelt. Senator Platt in [illegible] on [illegible] President's route a Democrat than a Republican expresses the attitude his party will [illegible] some time but it is a little surprising that it can so soon. They might at least have waited until the expiration of Roosevelt's term.

No [illegible] of dramatic now living in any country who [illegible] may will be observed a hundred years after his death as the Schiller anniversary was celebrated this week.

The New York papers boast of a fourteen year-old boy who is practising law in their town. If the prodigy lived in Boston the papers there would think it worthy of mention.

President Roosevelt indorsed Mayor Dunne's conduct during the strike but it is noticeable that he didn't refer to him as the greatest Mayor in the world.

The St. Petersburg papers are now declaring that Togo is afraid to meet Rojestvensky. The editors of those papers are due to wake up before long.

The Massachusetts minister who favors Sunday base ball and theaters has evidently found himself unable to entertain the people without help.

It is reported that after Secretary Taft lifted his 300 pounds avoirdupois from the lid it was found that the lid was badly bent.

PROSPECTS AT YAMPA

Now is a good time to make a [illegible] Yampa country. Town lots in Yampa or ranch properties in the vicinity [illegible] will not [illegible] sell as cheap as they [illegible] a few months. Those who [illegible] those who have the [illegible] will [illegible] make good [illegible] put up buildings. The people are [illegible] Yampa this summer and they must have some place to [illegible] Yampa, the gateway to Routt county and its wonderfully rich coal, agricultural and mineral fields, and Yampa will [illegible] most benefit from the opening up and development of the vast coal fields which will surely come with the entrance of the railroad.—Yampa Leader.

...DEATH CAUSED BY PNEUMONIA.

MRS. C. M. VALENTINE PASSED AWAY YESTERDAY IN MANITOU.—MRS. J. B. WHEELER ARRIVES TODAY.

Death came to Mrs. Charlotte Macy Valentine at the home of her daughter, Mrs. J. B. Wheeler, in Manitou, at noon yesterday after a few weeks' illness of pneumonia. Funeral arrangements will not be made until the arrival of Mrs. Wheeler from Cedar Rapids, Iowa, today.

Mrs. Valentine was 70 years of age and was connected with one of the best known railroad families of the west. Mrs. Valentine's daughter, Mrs. Wheeler, is the mother-in-law of H. E. Cable, formerly president of the Colorado road and now superintendent of the Cedar Rapids division of the Rock Island. Mr. Cable is the son of E. E. Cable, former president of the Rock Island system and one of the best known railroad men in America. Mrs. Valentine was also a relative of the Misses of New York and grandmother of Mrs. Daniel Rapp of Manitou.

Mrs. Valentine was a member of the Episcopal church and had made her home in Manitou for a number of years past. She leaves a large circle of friends in Manitou and Colorado Springs who will be grieved to learn of her death.

...GLASSES FOR FACE SLAPPED

JOHN DE FRIES TOOK FALL YESTERDAY OUT OF ALLEGED BETRAYER OF HIS CONFIDENCE.

Peter Johnson, who recently, it is said, betrayed the confidence of John DeFries, a mining broker, and received a reward of $500 for informing the governing committee of the mining exchange that, contrary to the exchange rules, he had obtained a rebate from DeFries on the ground of poverty and misfortune, was yesterday struck in the face and knocked down by DeFries on the floor of the mining exchange. Later DeFries paid a fine of $5 and costs in Justice Ruby's court, the complaint being made by George DeKennedy who charged DeFries with assaulting Peter Johnson.

From the testimony given in the court it appears that Johnson applied to DeFries several weeks ago to sell some mining stock for him upon the floor of the exchange. DeFries has made several deals for Johnson and the latter, upon a plea of poverty and a hard luck story, secured from DeFries various small sums as rebates, contrary to the rules of the exchange.

Johnson then went to the management of the exchange and learning that a standing reward of $500 for information securing a conviction for rate cutting was still in force, produced his testimony in the nature of certain checks. DeFries was called before the governing board, admitted the charge of rate cutting and explained to the board the conditions under which he gave the rebate to Johnson. The board imposed the minimum fine of $500, and suspended the member for a year.

W[illegible] WORK PLANNED
MOUNTAIN[illegible]

Colorado Springs Men Have Leased Reg Group Near Camp's Most Famous Producers. Work to Begin at Once.

Special to the Gazette.

CRIPPLE CREEK, May 12.—The company located on Battle Mountain adjoining the Portland property has been organized for $50,000, has been bonded for $50,000 and is now being financed by the Fortuna Gold Mining & Leasing company, of which Dr. [illegible] is president, A. [illegible] vice president, A. Jacobs secretary and treasurer, and Lewis Mueller of W. P. H. fame, who was associated with Harrison and Seaver in their big deal, will be general manager. Good ore will be showing in abundance.

Lately a contract on the Reg has been broken and the Reg property and it is the intention of the new company to push development work as the officers believe that it is the making of a big shipping proposition.

This territory adjoining the Portland ore should certainly contain some of the great vein systems that have poured such vast quantities of ore in the past from the possession of Cripple Creek properties and it is readily believed that this territory belonging to the Fortuna company will yield a good deal of ore.

The new operators are to extend the present level immediately, hoping to encounter the extension of the Portland vein and it is expected that very shortly the Reg will be a general producer of good ore will be showing in abundance.

The leasing company is capitalized for $75,000 divided in to 1,500,000 shares having a par value of 5 cents a share. The shaft on the Reg property is sunk to a depth of 500 feet and quite a little lateral work has been done.

[illegible] LEASED BY DENVER MEN

Special to the Gazette.

CRIPPLE CREEK, May 12.—The Majestic Finance and Development company, a Denver corporation which was lately incorporated for $50,000, has secured a lease from the Clyde Mining & Leasing company on all its Bull hill holdings, the bond calling for $50,000 while the lease is for a term of three years, with graded royalties.

While the Clyde company's territory has a shaft sunk to a depth of 350 feet and lateral work in all directions has been done, yet neither operators were blind side to encounter any quantities of pay ore. C. T. Schumaker, manager for the new outfit, had hardly started operations on the property when he opened 22 inches of ore in the 500-foot level that is showing values of from two to four ounces to the ton.

Miners have also been put to work at the 200-foot level where they are breaking a foot of ore of low grade. The management believes that with a little more depth this will prove to be a shipping proposition.

The Clyde has its history as nearly every property in the camp. Thousands upon thousands of dollars were spent upon this property by a banker of Denver who became a defaulter, so a majority of the work accomplished in this district by him was paid for by other people's money.

[illegible] LEASE AT WORK UNDER OPERATION

Special to the Gazette.

CRIPPLE CREEK, May 12.—The old Half Moon property which is located on Gold hill and belongs to the Matoa company is once more under operation but this time by lessees who are more than making expenses since they commenced working.

The new lessees are pushing development work at several different points of the mine and have opened up several good-sized ore bodies by following narrow streaks which were always supposed to be too narrow to work. It will be remembered that it was in this property that Carl Johnson better known as the "Lucky Swede" opened an ore shoot that he shipped $80,000 worth of gold bearing ore from.

[illegible] LEASE ON SPECIMEN CLAIM

Special to the Gazette.

CRIPPLE CREEK, May 12.—Holman and Associates operating under lease blocks 179 and 180 of the Specimen claims belonging to the Stratton estate have installed a large plant of mining machinery and will commence active operations tomorrow. The lessees have some good ore and will probably be shipping within the next 30 days.

SUNSHINE ON GALENA HILL

Special to the Gazette.

CRIPPLE CREEK, May 12.—The Fort Pitt company operating the Sunshine claim on Galena hill is pushing development work as fast as possible and keeping up a fair tonnage of ore each month. This is the only property in that vicinity that is under active operation and the only producer on that hill.

LEASE[illegible] FOR THE UNCLE SAM

Special to the Gazette.

CRIPPLE CREEK, May 12.—Lessees operating the Uncle Sam claim of the Blanche company have completed overhauling the plant of machinery and will commence operations in a few days. The operators have planted extensive development work which will doubtless result in making the claim a producing mine.

SOME ORE FROM THE BURNS CLAIM

Special to the Gazette.

CRIPPLE CREEK, May 12.—The Exposition Mines company operating under lease the south end of the Burns claim of the Acacia company is hoisting occasional cars of ore while pushing development work. The company has continued sinking and it is the intention to continue on down to the 800-foot point when it expects to cut the extension of the rich ore shoots of the Shortliff property whose territory adjoins them.

COCK FIGHT IN TOWN.

Two old friends, Capt. Bud and Little Archibald, have again been up to mischief. This time they attempted to pull off a cock fight, but were stopped at their wild pranks by good Deacon Strait. But something happened to the Deacon, and to Bud and likewise to Archibald. Fun-loving Weather Man reads for a good laugh and then look the matter up in next week's issue.

SUPERLATIVE STREETS.

The highest street in the world, said a globe-trotter, is Main street in Denver. The richest is Fifth avenue in New York. The widest is Market street in Philadelphia. The shortest is the Rue Rivoli in Paris—this street is only twenty feet long.

The dirtiest street is Tchong-ta-jin in Nanking. The cleanest is the Via Caetani in Seville. The most aristocratic is Grosvenor place, London. The most beautiful is the Avenue des Champs Elysees, Paris.

The narrowest street is Via Sol Havana, which has a width of forty-two inches. The longest is considered by many foreign artists and architects to be Broadway, with its sky-scrapers.—Minneapolis Journal.

GREAT SHOW OF STRENGTH

THE DEMAND FOR STOCKS IN WALL STREET EXPANDS GREATLY.

FORCE OF RECENT LIQUIDATION SEEMS TO HAVE BEEN SPENT — MARKET SHOWING INCREASED ACTIVITY.

NEW YORK, May 12.—Stocks made a great show of strength today and the demand expanded sufficiently to almost double the volume of the trading over that of several previous days. The dull resisting power shown by the market this week gave notice that the liquidation had spent its force but it was evident from the late recovery yesterday that there must be a considerable standing short interest which had refrained from covering in the expectation that there was to be a renewal of the liquidation.

The sharp flurry yesterday in the Northern Securities group demonstrated the vulnerable position of this short interest and served to encourage a continuation of the campaign against it today. The movement started in a hesitating way and there were several halts before it gained headway and spread to include pretty much the whole list.

St. Paul was the leader of the advance and the first response to its leadership was moderate especially amongst the other Hills which rose strongly yesterday. The movement had to contend also with the sharp weakness of consolidated Gas Brooklyn Union Gas on account of reduction in their dividends induced by the agitation toward the enforcement of lower rates for gas.

This announcement today explained yesterday's weakness in these stocks which was attributed at the time to an alleged leak of information on the decision to be handed down by the supreme court of the United States on pending franchise tax case. The most effective influence towards the recovery in prices was the successful completion of the London settlement, and London was a heavy buyer here for the next account. There was a resumption of activity also in a number of old pools in various stocks which desired lately from operations under the discouraging conditions in the market.

A number of metal stocks which have been under the influence of merger rules from time to time were conspicuous in spite of this kind of activity. Another field of revived activity amongst the professionals was the installment of rumors alleging the existence of plans to increase dividends on various stocks. The subsidiary Petroleum stock and Reading were notably affected by this influence.

The buying and holding up of stocks was regarded as in large part directed against the short interest and the forced covering by this element was an important factor in the day's strength. Professional profit taking clipped the day's gains and the closing was dull and heavy.

Bonds were [illegible] value, $2,425,000.

QUICK RECOVERY FOLLOWS A FLURRY AND TEMPORARY FALLING OFF OF DEMAND.

CHICAGO, May 12.—Renewed weakness in the wheat market [illegible] effect of higher prices of wheat at Liverpool due to a decreased shipment from Argentine. News from the Northwest, however, was decidedly bullish. Stocks opened lower and in response to [illegible] prices declined July [illegible] cent to 97. A quick recovery followed, however, by shorts. The market closed strong and nearly [illegible] cent under Friday's final quotations.

Owing to the weather there should be a good sentiment in the pit today was bearish. The market opened at almost the same point as the close, July opened [illegible] at 97¾, sold off to 96¾ and closed at 96¾. Local receipts were 49 cars, with two of contract grade.

Excellent weather was a weakening influence in the oats pit, July opened [illegible] cent lower at 39¾ to 39¾, sold [illegible] at 39¾ and closed at 39¾.

Higher prices for hogs held the provision market comparatively steady. July pork closed at a loss of 5 at 12.45. Lard was off 2½ at 7.25. Ribs were a shade lower at 7.22½ @ 7.

The Effective Remedy

WASHINGTON, IOWA, April 4, 1905.

I was troubled for over a year with so scanty a flow that it was virtually suppression. A heavy cold superinduced this condition and nothing I could do seemed to help me.

The only effective remedy I ever found was Wine of Cardui. Within two weeks I felt the good effects of the medicine and after I had used 18 bottles in all I was as healthy and regular as any woman could wish to be.

My sister used it while expecting to become a mother and found that it made childbirth comparatively easy and after the child was born she found that it helped her to gain her strength.

Miss [illegible] Post

Grand Worthy Associate Sons of Temperance.

WINE of CARDUI

Wine of Cardui cures nine out of every ten cases of the disorders of menstruation. These cures are permanent, whether the trouble is complicated or not.

Wine of Cardui cures the sickness of young girls, relieves the weakness of adults, banishes leucorrhea, headaches, backaches and nervousness and makes [illegible] attendant on the change of life.

Thousands of helpless, hopeless Miss Rose's sister girls found grateful relief from the pains of childbirth and have had a quick and happy recovery from its use. You cannot afford to suffer when $1.00 bottles are sold by all druggists.

Baby Mine

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided. To those who use this remedy are no longer despondent or gloomy as [illegible] and other distressing conditions are [illegible] avoided ready for the coming event, and the [illegible] Mother's Friend. It is worth its weight in gold," says many who have used it. $1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to BRADFIELD REGULATOR CO., [illegible]

Juggling With Dynamite

Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by Hefley-Arlarius Drug Co.

MANY MISSING NOTES

FOUND MASKED MAN STANDING BY BEDSIDE

Mrs. Norman C. Jones of Hemitus reported to the police of that town yesterday that an attempt was made to burglarize her home during the night. She was awakened by a masked man standing at the side of her bed who demanded money and jewelry. "Lie perfectly still and give me your money," he whispered, and moving to the door commenced to search for hidden treasure. Mrs. Putnam, a friend of Mrs. Jones who is sleeping in the next room, and Mrs. Jones called aloud for her friend to awaken. The burglar again cautioned them to keep still, but as Mrs. Putnam rushed into the room he jumped out the window and escaped.

As I Was Saying
We can restore decayed or broken-down teeth to their original beauty and strength by our Crowns of Porcelain and Gold, $4.00 each. Missing teeth replaced by our system of bridge work cannot be detected from the most perfect natural teeth. Special price $4.00 per tooth. For a short time we are making our best set of teeth on our $10.00 Vulcanite plates for $7.50. All other work at prices in proportion. The very best of references. Established for ten years, the largest and best-equipped office in the city. Chicago Dental Parlors, Barnes' Building, 113 E. Pike's Peak. Phone 918-B. Office hours, 8 a. m. to 6 p. m. Evenings, 7 till 8. Sundays from 9 to 12. Dr. Shaw, Propr.
